🪪 PROFILE

I am an engineering student in Data Science, AI & Big Data, passionate about new technologies and having a great desire for creativity, I am able to integrate and assert my skills in any project in the fields of AI and Big data.

🎓 EDUCATION

Cycle Ingénieur en Data Science, IA & Big data
ENSA Tetouan
09/2023 – present | Tetouan, Morocco
This specialized engineering program represents the pinnacle of my academic training, focusing on the most advanced technologies in artificial intelligence and big data processing. The curriculum covers the entire data processing process, from collection and storage to analysis and visualization, including the development of AI models for intelligent applications.

Classes préparatoires
National School of Applied Sciences of Tetouan
04/2021 – 05/2023 | Tetouan, Morocco
The preparatory classes laid the solid foundation for my engineering training, with excellent results that allowed me to enter the engineering cycle. This intensive period developed my skills in mathematics, physics, chemistry, and programming, while carrying out practical projects in AutoCAD and MATLAB.

Baccalauréat
GSP SAINT JEAN
10/2019 – 09/2020 | N'ZEREKORE, GUINEA
The scientific baccalaureate obtained with honors, ranking me third best student in Guinea, marked the beginning of my academic career of excellence. This exceptional achievement in a competitive context demonstrated my ability to excel in fundamental scientific subjects.
